## 舞台 / 观众看台 / 力压架 STAGES & LAYERS

力压架观众台的优点在于腿部系统的简单性，可快速、简单、安全地创造出各种高度。

该系统的高度源自于建筑标准条例：所有阶梯单元完全符合标准的舞台高度，且符合典型演出场地和展览场地的立法要求。

可按客户要求定制透明舞台板，胶合舞台板和铝制舞台以及钢制舞台。

The beauty of the LAYHER AUDIENCE range lies in the simplicity of a leg system which allows a remarkably wide range of heights to be created quickly, easily and safely.

The heights of the system are derived from building standard regulations: all step units fit directly on to standard stage heights and are fully compliant with legislative requirements for typical performance and exhibition venues.

The flexible stages provide inspiration to give your projects a fresh look, time and again. Make the best use of your facilities by expanding your banqueting options, creating a colour changing dance floor or build catwalks, etc.

Transparent board stage, plywood board stage and aluminum stage as well as steel stage are available upon your request. New ideas are welcomed for us. We like to be challenged!

## 力压架观众看台 LAYER AUDIENCE STAGE

## 钢质舞台 STEEL STAGE

这款舞台是我司最新研制的钢质拆装舞台，规格1.22X2.44米，高度可调节，基本高度可根据客户要求定做。

本款舞台整个支架是由直径为48mm，壁厚为3mm 钢管构成，钢管都表面为镀锌处理，面板采用18mm 防火板，面板表面可根据客户要求粘贴不同颜色的地毯。

通过③(可调节底座)调节舞台的高度和协调地面高度不平对舞台的影响。

This transportable steel stage is formed of units, 1220 mm square and 2440 mm high. The height is adjustable plus custom-made basic height. The specifications of the zinc-plated steel pipe are 48 mm diameter and 3 mm thickness. It is covered with 18 mm fire-retarded stage floor boards and choice of color carpets provided.

A bottom plate ③ is fixed to lower end of each steel pipe for the minor adjustment in case the floor surface is not flat.

## 铝质舞台 ALUMINUM STAGE

铝制组合舞台是我司铝合金舞台中的一种，除了面板使用得是18mm防火板或有机玻璃外，其他配件均采用全铝合金制成，产品特点：轻便安装快捷、易维护、安全可靠，存储空间及运输空间节省，可以拼接任何舞台效果，通用性强。

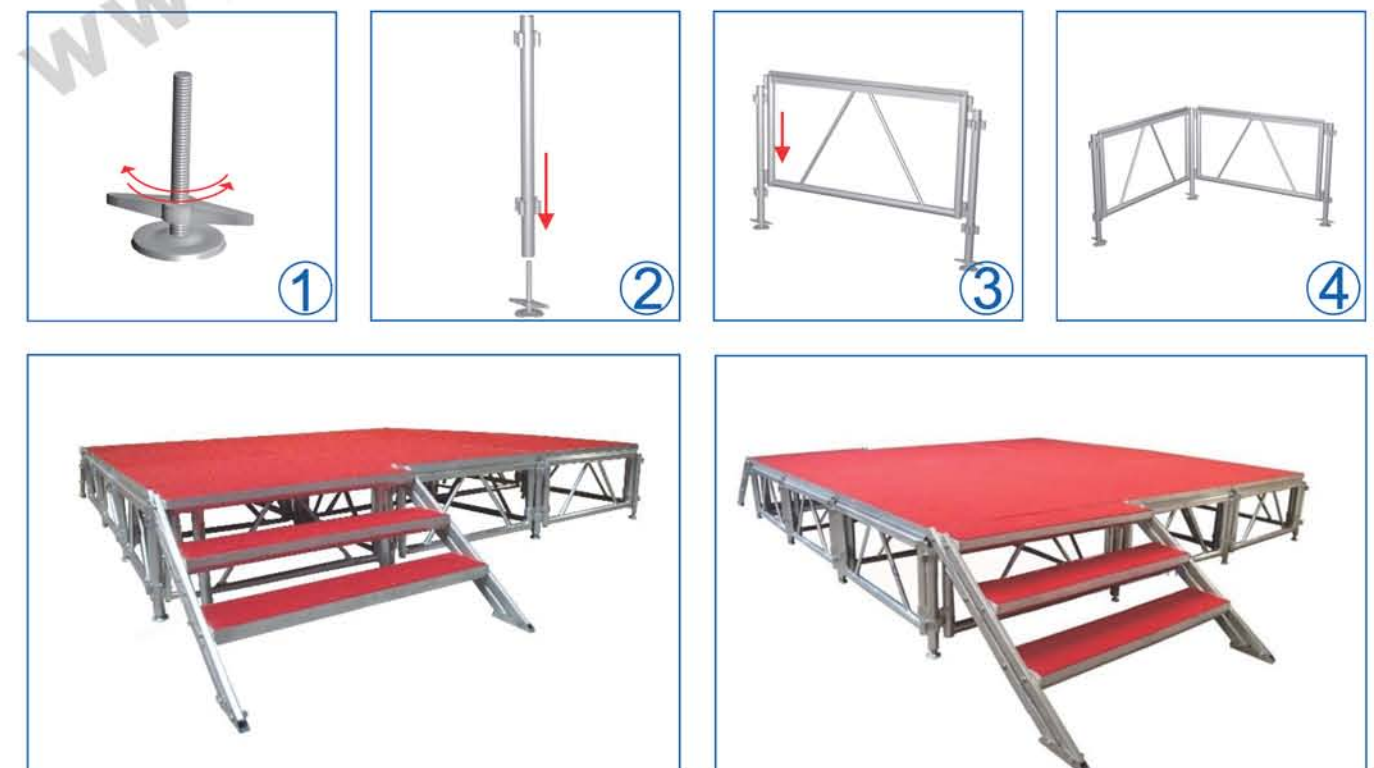

舞台夹木板面规格：

1220mmX1220mmX18mm

通过①可调节底座 调节舞台的高度和协调地面高度不平对舞台的影响。

This transportable stage is made of Aluminum alloy. For the stage floor we offer a choice of fire-retarded 18 mm plywood and transparent acrylic tiles. It features light, easy assembly, rust-proof, space-saving for storage and delivery.

The lower ends of all pipes ① is fitted with an adjustable bottom plates for minor adjustment in case of the floor surface not flat.
